Mechanicam vero duplicem Veteres constituerunt: Rationalem quae per Demonstrationes accurate procedit, & Practicam. Ad practicam spectant Artes omnes Manuales, a quibus utique Mechanica nomen mutuata est. Cum autem Artifices parum accurate operari soleant, fit ut Mechanica omnis a Geometria ita distinguatur, ut quicquid accuratum sit ad Geometriam referatur, quicquid minus accuratum ad Mechanicam. Attamen errores non sunt Artis sed Artificum. Qui minus accurate operatur, imperfectior est Mechanicus, & si quis accuratissime operari posset, hic foret Mechanicus omnium perfectissimus.

NEWTON

La généralité que j’embrasse, au lieu d’éblouir nos lumieres, nous découvrira plutôt les véritables loix de la Nature dans tout leur éclat, & on y trouvera des raisons encore plus fortes, d’en admirer la beauté & la simplicité.

EULER

... ut proinde his paucis consideratis tota haec materia redacta sit ad puram Geometriam, quod in physicis & mechanicis unice desideratum.

LEIBNIZ

The ARCHIVE FOR RATIONAL MECHANICS AND ANALYSIS nourishes the discipline of mechanics as a deductive, mathematical science in the classical tradition and promotes pure analysis, particularly in contexts of application. Its purpose is to give rapid and full publication to researches of exceptional moment, depth, and permanence.

Each memoir must meet a standard of rigor set by the best work in its field. Contributions must consist largely of original research; on occasion, an expository paper may be invited.

English, French, German, Italian, and Latin are the languages of the Archive. Authors are urged to write clearly and well, avoiding an excessively condensed or crabbed style. The editors reserve the right to return to authors manuscripts found deficient in style, form, or clarity.

Manuscripts intended for the Archive should be submitted to an appropriate member of the Editorial Board.

CONTENTS OF VOLUME 50

BARDOS, C., & L. TARTAR, Sur l'Unicité Rétrograde des Equations Paraboliques et Quelques Questions Voisines	10
BHARGAVA, S., & R. J. DUFFIN, Dual Extremum Principles Relating to Optimum Beam Design	314
DAY, W. A., On the Motion of an Isolated Body	303
DUFFIN, R. J., see BHARGAVA, S.	314
DUNWOODY, J., One Dimensional Shock Waves in Heat Conducting Materials with Memory. 3. Evolutionary Behaviour	278
GORDON, W. B., On the Equivalence of Second Order Systems Occurring in the Calculus of Variations	118
GREEN, A. E., On Some General Formulae in Finite Elastostatics	73
LIU, I-SHIH, A Non-simple Heat-conducting Fluid	26
LIU, I-SHIH, On the Entropy Supply in a Classical and a Relativistic Fluid	111
KEENER, J. P., & H. B. KELLER, Perturbed Bifurcation Theory	159
KELLER, H. B., see KEENER, J. P.	159
MARRIS, A. W., Steady Universal Motions of a Navier-Stokes Fluid: The Case when the Velocity Magnitude is Constant on a Lamb Surface	99
MOSES, H. E., & A. F. QUESADA, The Expansion of Physical Quantities in Terms of the Irreducible Representations of the Scale-Euclidean Group and Applications to the Construction of Scale-Invariant Correlation Functions. Part II. Three-Dimensional Problems; Generalizations of the Helmholtz Vector Decomposition Theorem	194
PAO, C. V., Solution of a Nonlinear Boltzmann Equation for Neutron Transport in L^1 Space	290
PISTERS, M., Eindeutigkeitssätze für die Dirichletsche Randwertaufgabe bei elliptisch-parabolischen Differentialgleichungen und untere Schranken für den kleinsten Eigenwert	176
QUESADA, A. F., see MOSES, H. E.	194
REDHEFFER, R., On a Nonlinear Functional of Berkovitz and Pollard	1
SEARL, J. W., Extensions of a Theorem of Erdélyi	127
TARTAR, L., see BARDOS, C.	10
WANG, C.-C., On the Response Functions of Isotropic Elastic Shells	81

WENTE, H. C., An Existence Theorem for Surfaces in Equilibrium Satisfying a Volume Constraint	139
WRIGHT, T. W., Acceleration Waves in Simple Elastic Materials.	237
ZEIDLER, E., Existenzbeweis für permanente Kapillar-Schwerewellen mit allgemeinen Wirbelverteilungen	34
Index, Archive for Rational Mechanics and Analysis, Volumes 1-50 (1956-1973), and Journal of Rational Mechanics and Analysis, Volumes 1-5 (1952-1956)	331
